

LORQUET Auric

3D Artist - Computer Graphics Generalist

ABOUT ME

I am a computer graphics artist specialized in 3D VFX. I have made a lot of 2D projects but my true passion is 3D art for cinema and video games.

I'm involved in almost everything in the production pipeline from the early concepts to the final color grading. This wide view allow me to easily fit into a team while knowing what the other ones really need to work properly. My way to work is well balanced between the artistic view and the technical expertise both being essential to get successful results.

Since 2023 I also started to work as an audiovisual technician. I am known for being versatile and reliable.

I am used to work with a lot of softwares and I can easily learn new ones.

I have a first aid certificate.
